

Printing Priority

Robert's Rules of Order

We ask you to consider that during peak printing periods requests must be prioritized. As you arrange your work calendars and plan events, be aware of the lead time required to have printed materials prepared in time to meet your objectives.

Color Printing

When placing a request for color copies keep in mind there is a significant increase in cost compared to black copies.

Priority

Printing priority is assigned in two ways: first-come, first-served basis or a determination of the impact of the printed material.

Jobs submitted electronically result in better quality.

Print Shop Policy

Robert's Rules

The department that generates a print shop request is responsible for the work. In other words, it will be assumed that all necessary clearances have been obtained by the requestor when material is submitted to the print shop.

*** Any material being used off campus must first be cleared by the Public Relations & Communications Office.**

Individuals or departments are responsible for:

- proofreading final copy prior to printing
- furnishing a complete working dummy for design, printing and binding
- picking up and distributing printed materials
- obtaining a copyright release, when reproduced material bears a copyright

The printing department is not authorized to, nor will it, reproduce material for an individual, group or agency outside of the institute.

Copyright

All copyrighted material must fall within the permissible guidelines of the copyright law, or have written permission from the author; it is the obligation of the requestor to obtain same.
